FAQ

WHAT IS THE FORMA LIGHT SYSTEM?

FORMA LIGHT IS A MINIMALLY INVASIVE COSMETIC PROCEDURE AIMED AT TREATING COMMON SKIN CONDITIONS SUCH AS BROWN SPOTS, ROSACEA AND BROKEN CAPILLARIES. PHOTO REJUVENATION NOT ONLY REDUCES THE EFFECTS OF SUN DAMAGE AND AGING, IT ALSO ENCOURAGES COLLAGEN REMODELING GIVING YOU SMOOTHER, YOUNGER & HEALTHIER LOOKING SKIN. THE GENTLE PROCEDURE IS NON-ABLATIVE AND REQUIRES ZERO DOWNTIME.

HOW LONG DOES A FORMA LIGHT TREATMENT TAKE?

FORMA LIGHT TREATMENTS CAN TAKE ANYWHERE FROM 20-25 MINUTES DEPENDING ON THE PATIENT AND CONDITION BEING TREATED.

HOW MANY TREATMENTS WILL I NEED? HOW LONG DOES IT TAKE BEFORE I SEE IMPROVEMENT?

WE ALWAYS RECOMMEND THAT YOU CONSULT WITH YOUR PRACTITIONER TO BEST UNDERSTAND YOUR INDIVIDUAL NEEDS. HOWEVER, THE NUMBER OF TREATMENT SESSIONS RANGES FROM 3-5 TREATMENTS, DEPENDING ON THE TYPE OF TREATMENT AND THE PATIENT'S PARAMETERS.

GENERALLY SPEAKING, SOME RESULTS CAN BE SEEN AFTER THE FIRST TREATMENT, BUT THE ACCUMULATIVE EFFECT WILL BE SEEN ONLY AFTER A FEW MORE SESSIONS. PLEASE NOTE THAT EVERY PATIENT IS UNIQUE AND RESULTS MAY VARY.

FDA CLEARANCE: THE FORMA LIGHT SYSTEM IS INDICATED FOR USE IN AESTHETIC APPLICATIONS IN DERMATOLOGY.
